

We render our expertise under one roof as follows:

Location advisory services:-

The project site has to be selected where the title free and unencumbered land is available. The site should not have any Government restrictions from pollution control board or defence department or any other local Government reservation etc. In addition, all other basic urban and industrial infrastructure facilities should be available. The Government incentives in that area also plays significant role on long term viability of the project.

Obtaining various Government permissions:-

For doing investment in the project, the promoters have to follow law of the land. There are various Government permissions for setting up business ventures. We render our services in getting the same by Liaoning with concerned Government authorities.

Preparation of Techno-Economic Feasibility reports (DPRs):-

It is the fundamental document which determines the economic viability of the project. It is required everywhere.

Loan syndication:-

Term Loan and working capital facilities from financial institutions are essential to set up the business venture. We render our services in negotiating and selecting a suitable financial institution for loan syndication. We do the compliance of the their documentation and get the sanction by doing systematic follow-up.

Obtaining Government incentives/subsidies:-

There are certain incentive schemes of Central as well State Governments for promotion of industries. We study such schemes; do scientific analysis to ascertain the long term benefits to the clients. We do the compliance of documentation and get the sanction from the concerned Government authorities by doing regular follow up.

Arranging venture capital for start-ups:-

There are private Venture Capitalists who are keen to invest in the existing as well as greenfiled projects.We render our services in getting the VC.

Joint ventures and collaborations:-

There is a PPP model in our country for collaboratio with Government agencies..Then,there are foreign enterprises which are keen in doing joint ventures with local enterprises by rendering technical and or financial collaborations.We render our services in finalising such joint ventures/collaborations.

NPA settlement:-

It is a big challenge to the investors as well as the financial institutions to settle the loan over dues. We render our services in negotiating with the financial institutions to arrive at amicable settlement.

Registration of Intellectual Property Rights/

A-Mark:-

We have got specialized expertise in doing various important Government registrations.

Organizing Entrepreneurship Development Programmed:-

We organize motivational camps, specialised seminars and EDPs to the upcoming entrepreneurs.

Promotion of food parks, textile parks, IT hubs:-

Central as well as State governments are promoting sector wise industrial parks. We undertake the professional responsibilities for setting up the industrial parks.
